(Attached to foot leveler)

Safety and Compliance

- Warning #1 : Do not let children climb on or play with the unit.
- Warning #2 : To avoid danger of suffocation, keep packing plastic bag away from babies and children. Do not re-use this bag.
- Handle with care.
- Two adults are recommended for ease of assembly.
- To avoid scratching the floor, assemble the Unit on a soft surface such as a carpet.
- Load the unit evenly and place the heaviest items on the lower shelves.

Note : Please, dispose plastic rings (Black Color) before assembling the product.

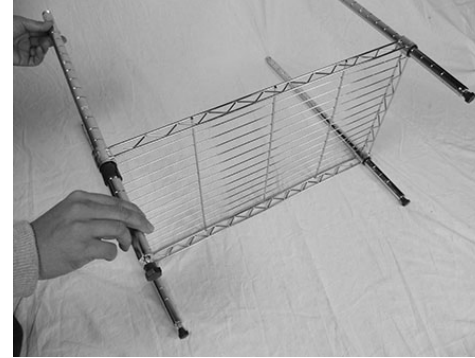

Installation Instruction

A Check the parts list.

B Snap the two sleeves with the tapered plastic clips (arrow & "TOP" facing up) at the desired height on the post.

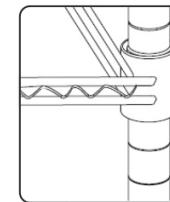

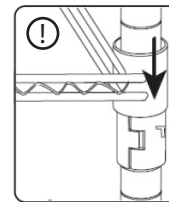

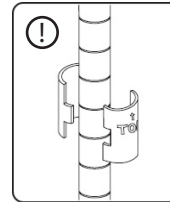

C Hold the shelf on its side and slide the top of the posts through the bottom of the shelf at each corner until there is a snug fit. After the four posts have been slid through the shelf corners, position the shelf upright.

D Snap the sleeves onto the posts at your next desired shelf height. Slide the shelf down from the top of the posts onto the sleeves.

Note:
Tapered plastic clips need to be installed on the same grooved line level. It is normal to have small gaps in between the tapered plastic clips after it is installed on the post.

E Screw the upper-post at each corner into the already assembled post using the connectors attached to the upper-posts. Then repeat steps C and D for the remaining shelves.

F TIP: Secure the shelves in place over the sleeves by pushing firmly down on every shelf at each corner using a rubber mallet. (Caution: Be careful not to damage the unit with the rubber mallet. It is recommended to place a towel over the shelves to help prevent damaging.)

G Once shelf is completely assembled, use the foot leveler or Wheels (if applicable) to adjust the level of each corner to attain proper leveling. Place liner on each shelf.
